		LL this is BS. Who is telling Marquedo this. Basically there looking for reasons to hold up the payment. What I would tell the Commissioner is that we have worked for the last 6 months doing a lot of engineering work other than SCADA but they are holding up \$250,000 est. for about \$25,000 of SCADA fees. I'm getting a little upset. Briones

☆		+12103937659 Rolando Briones They are going to use this as another reason not to pay until we produce more paper. Actually we agreed to help the city manager review the project and history. He agreed he owes us money and we agreed we would go to council meeting. But I can't answer the managers questions without the help of my subs who I can't ask to help since we haven't paid them in 6 months Source Extraction: File System	1/23/2016 12:47:03 AM(UTC+0)	
☆		+12103937659 Rolando Briones Gil must clarify the truth. 1. I will meet with them. 2. They will pay base fee invoices 3. I will get subs paid and 4. 		Mr CM i appreciate you walking us throughout the site. I however am confused as to what the enngineers responsibility and what the contractors responsibility. In addition David Salinas has been brought up several times, and i personally remember him being very involved. I think it would be very important that he be available with us, Susan Crawford and Rolando Briones. Without his input we are making decisions on what we think happened. We have contracts with CCI and Briones I want to make sure the City Attorney be included to determine legal responsibilities we have. your nor I are attorneys and need to get him to advise us directly independent of what mr chapman is doing.
